

## **Kanosak Golden Retrievers**

*“A Little Alaskan Gold in Illinois”*

**17318 Barber Greene Road, Maple Park, IL 60151 815/899-HEEL**

### **Thank you for inquiring about Kanosak Goldens**

We at Kanosak Kennels are proud of our Alaskan Heritage, and we try to keep that in mind not only with our kennel name (Kanosak means “GOLD” in Eskimo), but also with our breeding goals. Alaska is one of the most awesome places on earth, its majestic mountains, the strength of its soul, its natural beauty, and the open friendliness of its people are all reflected in our breeding goals. They are to produce golden retrievers that reflect this ideal – a golden that is gorgeous to look at, with good sound structure, a willingness to work and a friendly, confident personality.

At Kanosak we try to produce this all-round, multi-purpose golden. Our dogs can be shown in conformation, obedience, agility, tracking, rally, and field, but most important they are outstanding companions. We feel that a sound golden, with normal hips, eyes, and hearts can be produced. We strive for this same dog to have championship conformation, intelligence, enthusiastic personality, and common sense. We strive to achieve this multi-purpose ideal, trying not to over emphasize any one point at the expense of another.

At Kanosak we try to give each of our puppies the best possible start in life. Without question, all our puppies are given proper nutrition and veterinary care. But much more is needed beyond this basic care to give the puppy the best possible start in life. We have a routine socializing, play and love time every day with each puppy. At seven weeks our puppies are tested with a test similar to those developed by Pfaffenburg, Campbell and the Leader Dog School for the Blind. We find that these tests help us to determine the puppy’s personalities. We also “stack” and “gait” our seven week olds to gain an opinion as to potential structure and conformation. After we have looked at the puppy’s conformation, test results and day-to-day socialization information, we try to match the right puppy with the right owner. Our puppies are available for placement in their new homes at seven weeks of age.

Enclosed is a reservation form that you should return to us with a \$100.00 deposit if you are interested in obtaining a Kanosak puppy. Should you have further questions, please do not hesitate to call.

**Again, thank you for your interest in our Kanosak Golden Retrievers.**

**Ronnie Bizer**

## Isaac Bio

**BISS Am/Can CH Westmarch One For the Money, UD, RAE, AX, AXJ**

Isaac, who was a singleton puppy, earned his Championship completely owner handled. He was WD/BW at his first show at six months (Ron Pemberton), earned a four point major at thirteen months going WD at the Des Moines GRC Specialty (Betty Ann Hale), and completing his Championship with a bang at just 25 months going WD/BW and BOB over five specials for a five point major (Bonnie Threfall).

Isaac was awarded Agility Dog of the year from the Greater Twin Cities Golden Retriever Club in 2003. He retired from agility in 2004 after earning his Excellent Standard and Excellent Jumpers with Weaves titles.

With very little training, Isaac earned his CD in 2004 with an average score of 197. In 2005 Isaac earned his CDX in 4 shows with all placing scores. Isaac earned his Rally Titles going from RN to RAE in less than a year in 19 straight shows with mostly placing scores. His utility title was earned in 2008 with all placing scores.

Conformation wise, Isaac stands 24-1/4" and weighs 78 lbs. He is an impressive looking dog with a stuffing headpiece and a melt your heart expression. His full, correctly textured coat is light to medium gold with lighter featuring. He has black pigment, dark eyes and a scissor bite with full dentition. Isaac is a balanced dog with a solid back, prominent fore chest, straight legs, tight feet and a lovely neck to shoulder blend. Since no dog is perfect, we would like to see a bit less leg under him and a bit less drop in the croup. Isaac is a true mover with effortless gait. He is a dog who muscled up easily and maintains this hard working condition.

Temperament wise, Isaac has never had a bad day and loves all creatures, male or female, big or small. He is a willing, enthusiastic worker and is very fast and agile for his size. His favorite spot is his mother's lap.

## Kanosak's Love Makes Her A Home AX AXJ OF TKN ATT CGCA CCA

### “River”

River is a wonderful example of a multi-faceted Golden Retriever. She is a happy girl who is willing to try anything I ask of her. She wants nothing more than to spend time with me. She loves people and is a joy to live with because of her on/off switch. We have multiple dogs and a cat in our home, and she gets along with them all.

River has been shown in agility, traveling well in the car. She can travel long distances for agility trials and arrive ready to work. She has a youthful, playful personality, and loves to run. She learns quickly and is flexible enough to work successfully with multiple handlers. Her agility partner describes her as an enthusiastic worker. River has started training in the sport of tracking. She has also been introduced to fieldwork and enjoys swimming.

As fast as she is in the agility ring, she is just as happy to sit beside me with her head on my lap while I work on grading my school papers. She is content just touching me or her grandma Echo.

River stands at a hair under 22 inches at the withers and weighs 56 pounds. She has a level bite and excellent black pigment. She is a balanced dog with good bone structure. She is medium gold in color, with a moderate straight coat that dries quickly.

Our goals for River, once she has finished being the great mom we know she will be, include continuing her journey toward earning her agility MACH, and adding more obedience and rally titles to her name. Once her human retires from teaching, this team hopes to add scent work to the list of fun activities for River to participate in, along with following her Grandma Echo's lead doing therapy visits.

See some of River's agility runs at Kanosak's YouTube channel: <https://tinyurl.com/RiverRunsAgility>
